ADDRESS.

IT is now fifteen years since the NEW NAVY LIST was published by the late Commander CHARLES HAULTAIN, K.H., and its success, up to the present time, has amply justified the project of that gallant and lamented officer. The publication, in its altered form, having now entered upon its eighth year, it is due to the profession amongst which its support was looked for, to add, that the success has in no degree diminished. While admitting the above fact, therefore, the Editor and Publishers deem it right to return their thanks for the patronage so freely bestowed; and to express a hope that the improvements introduced into each succeeding number will continue to earn for it the support of those to whose interests the work is so peculiarly addressed.

The grand object sought to be achieved by the NEW NAVY LIST is the keeping before the world, in a condensed but intelligible shape, the more important points of service performed by each Officer, whatever may be his rank. It must be taken for granted that common routine services have fallen more or less to the lot of all; but to enter into their detail would be to defeat that part of the plan of the work which embraces condensation. It is not contemplated by the exclusion of such services to underrate them, but when it is considered that already nearly one-third of each book is occupied by notices of war or scientific performances, it will be obvious that more space could not be accorded without rendering it so bulky and expensive, as to defeat the proposed and more desirable end of extensive circulation.

The past year has been especially marked by various performances well deserving the notice of the country. The Editor has endeavoured to include notices of these services; but, as in many cases he has possibly overlooked the names of Officers who have distinguished themselves, or has only imperfectly noticed their gallant deeds, he begs to urge upon Officers the desirableness of communicating with him at their earliest convenience.

ADDRESS TO THE EDITION,

Published in February, 1846.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed, that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work ; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting ; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy.

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the "date of passing" column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants, demands some explanation. The extremely partial, and occasionally

Digitized by Google

inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on the part of Officers of long standing generally to communicate the information, added to the impracticability of procuring it from an official source, decided the point of removing the column entirely. If, however, at any future period, the dates of passing can be given in every case, it will be more valuable and far less invidious than it was previously.

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's achievements at the Nile, 1st Aug., 1798; at Copenhagen, 2nd April, 1801; and at Trafalgar, 21st Oct., 1805; together with the expedition to Egypt, 1801; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific character are here alluded to, which Officers are requested to furnish in order to render this peculiar province more complete.

It will, however, be obvious that the great expenses connected with the publication of a work like the NEW NAVY LIST cannot be persevered in without an increase to the number of Subscribers; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

Pay, £456 5s. per annum.

PLAN OF RETIREMENT, AUGUST 31, 1846.

1st. The rank of retired Rear-Admiral to be given, by seniority, to such applicants from the 14s. 6d. half-pay list, as may be willing to accept it, with the pay of £1 5s. per day, and the corresponding pension to their widows, under the usual restrictions.

2d. An addition of 7s. 6d. per day to be given to applicants, by seniority, from the 12s. 6d. and 10s. 6d. half pay lists, being captains of not less than 20 years standing, and 55 years of age. Officers from both lists to be permitted to assume the title of Retired Rear-Admiral at the period when they would have obtained the Flag by seniority, had they remained upon the active list. Their widows to be entitled to a pension of £110 per year; and to the pension of Rear-Admiral's widow, when the rank of Retired Rear-Admiral has been attained.

3d. The vacancies upon the £1 list to be filled up, in turn of seniority, by officers now accepting the 18s. per day; but no new admissions to the £1 5s. list to be made until it is reduced below the number of 25, which it is not to exceed afterwards. The permanent retired list to be reduced to 100, by making one appointment for every two vacancies, the first 25 officers upon the list receiving £1 5s. per day, and the remaining 75 £1 per day, with the right of assuming the rank of Retired Rear-Admiral, when entitled to it by seniority.

4th. The active list of Captains not permanently to exceed 500. A proportionate reduction to be made in the 14s. 6d. and 12s. 6d. half-pay lists; the first to consist of 70 Captains, and the latter of 100.

5th. Good service pensions to be retained by Captains, until they reach the rank of Rear-Admiral, or Retired Rear-Admiral.

6th. The promotions from the Captains' list to the Admirals' list in future to be continuous, reserving always the undoubted right of the Crown to select officers for promotion in the higher as well as the lower ranks, whenever the public interest requires such an exercise of the prerogative.

7th. The Admirals' list not permanently to exceed 150 in number, and to be thus distributed:—

30 Admirals, or 10 of each squadron;
45 Vice-Admirals, or 15 of each squadron;
And 75 Rear-Admirals, or 25 of each squadron.

8th. This plan to come into operation on the 1st of October of the present year, and all letters relating to it to be treated as strictly confidential.

By command of their Lordships,

H. G. WARD.

MASTERS.

Military Rank—Captain.

To qualify an Officer to receive a Commission as Master, he must have been at Sea at least seven years, two of which in Her Majesty's Navy, in the quality of Acting Master or Second Master; or, having served seven years at Sea, shall have actually been one year or more Chief Mate, and two years Master, or two years Chief Mate, and one year Master of a Merchant Vessel. He shall produce Certificates of diligence, sobriety, and good conduct from his Captains, also from the Owners, for the time he served as Master, and from the Owners and Master for the time he served as Mate; and shall pass such Examination as the Admiralty may from time to time direct; but no Candidate shall be examined before he shall have attained the age of twenty-one years, nor after the age of forty.

Time served as Master, shall, in future, be considered as time served as Lieutenant, to qualify an Officer to receive a Commission as Commander, under Her Majesty's Regulations, Art. 2, Sec. 4, Chap. 3, in the event of any particularly distinguished conduct which in the opinion of the Lords Commissioners of the Admiralty it may be proper to reward by such advancement.

Such Masters as shall not have served afloat as Masters in the Royal Navy six complete years, and are not already in the receipt of higher half pay, shall not be entitled to any increase of pay beyond Five shillings a day, except in cases where it shall appear to the Lords Commissioners of the Admiralty, that inability to serve the prescribed term of six years shall have been caused by wounds or ill health, arising from the service.

A Master's Assistant (when such rating shall be allowed by the Admiralty) previously to receiving an appointment as such to any of Her Majesty's ships, will be required to have a thorough knowledge of Practical Observations of the Sun, Moon and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work.

(*See page* 321.)

EXAMINATION OF MASTERS.

ADMIRALTY, DECEMBER 17, 1849.

The Lords Commissioners of the Admiralty having had under their consideration the present Regulations for the examination of Masters and Second Masters of Her Majesty's Fleet, as defined by Art. 21, chap. 2, page 22, and Art. 25, chap. 2, page 25, of the printed instructions, have been pleased to direct that on and after the 1st of January next, the following Regulations shall be adopted, viz.:—

All Officers passing for the rank of Second Masters (or Officers from the Merchant Service who are candidates for the rank of Master, under the Queen's Regulations, Art. 6, chap. 3, page 24), shall be examined in seamanship, either at home or abroad, by one Captain or Commander, and three Masters; and after having received a certificate of having passed such examination, they shall undergo their examination in navigation, at the Royal Naval College (instead of the Trinity House), under the same Regulations, and at the same period as Midshipmen passing for Lieutenants; but the examination for pilotage is to be conducted at the Trinity House, under the rules and regulations at present in force but subsequent to the above-mentioned examinations. Having completed the above examinations, they will be considered eligible for the rank of Master in the Royal Navy, provided they shall have served the time required by the Queen's Regulations.

The seniority of Second Masters (or of candidates for the rank of Masters) is in future to reckon rom the date of their passing in seamanship for hat rank, provided they shall subsequently pass in Navigation at the Royal Naval College on the first or second examination-day following, either of which days they are at liberty to select; or, in the event of an Officer having previously passed *abroad* in seamanship, he is at liberty, after his arrival in England, to select either the first or second examination-day at the Royal Naval College; or if belonging to a ship under orders to be paid off, on the first or second examination-day after having been so paid off, when, if he shall succeed in passing, he will be allowed seniority from the date of his having passed abroad. But no Second Master (or candidate for the rank of Master) will be allowed such seniority who shall fail in passing the Royal Navy College at the first trial, or who shall not pass at the Trinity House within a month after his having passed in Navigation.

Officers appearing before the Trinity Board for the purpose of passing in pilotage, must be qualified to take charge as Pilot of any of Her Majesty's frigates for the coast and ports for which Masters have hitherto been examined; and when they shall have served three years, at least, in frigates or sloops, they may be further examined as to their qualifications to take charge of Line-of-battle ships; but in this examination it will be required that they pass for the largest description of first-rates. In the event of an Officer serving abroad as Acting Master of a Line-of-battle ship, the time so served may reckon as part of the aforesaid three years.

The class of ship of which Officers are capable of taking charge as Pilots will be stated in the certificate granted to them by the Trinity House.

All Officers desirous of being examined in pilotage at Trinity House, either for the rank of Second Master, or as to their qualifications to serve as Masters of frigates, or of Line-of-battle ships, should present themselves at the Admiralty, bringing with them a certificate of their birth, and also their original certificates for the entire period they have been employed in Her Majesty's service, or in merchant ships, in each of which certificates the word sobriety must be included. Similar certificates must be produced by Officers presenting themselves to pass in navigation at the Royal Naval College.—By command of their Lordships,

J. PARKER.

MATES.

Military Rank—Lieutenant.

To qualify an Officer to become a Mate, he must have served the time and passed the Examination required to qualify him for a Lieutenantcy; but whatever rank beyond that of Midshipman he may obtain abroad, previous to passing such Examination at the Naval College as may from time to time be required will depend for confirmation on his passing the said Examination within such period after his return to England as shall be directed from time to time by the Admiralty.

No Mate shall be allowed Half-Pay without having been previously surveyed and reported unfit by the Director-General, or the Officers of one of the Naval Hospitals at home. The Medical Officers are therefore to report particularly in each case the probable period at which the Invalid may be again fit for employment; and at the expiration of such period the Mate is to report himself to their Lordships, in order that, if he should state himself to be still unable to serve, proper measures may be taken to ascertain his continued unfitness; after which, should he be declared fit for employment and still withhold his services, his Half-Pay is to be respited.

Mates who may apply for the retiring pension of two shillings and sixpence a day after twenty years' actual service, will not be re-admitted after having accepted such Pension. The names of all Mates who remain out of the Service for more than one year, without applying for an Appointment, will be removed from the official Register of Mates and Midshipmen, and be considered as having relinquished the Naval Service; unless the omission proceeded from unavoidable causes.

All Midshipmen who shall have passed such Examination respecting their Qualifications for the appointment of Lieutenant as the Lords Commissioners of the Admiralty may from time to time direct (if abroad, for Seamanship and Navigation, and if at home also at the Royal Naval College), shall be considered eligible to have Commissions as Mates in whatever Ship they may be serving; such Commission will be given by the Lords Commissioners of the Admiralty, upon the recommendation of the Commanding Officer of the Ship in which the person may be serving, transmitted by the Commander-in-Chief or Senior Officer on the Station.

Commanders-in-Chief on Foreign Stations may give Acting Commissions as Mates to such Midshipmen as may pass abroad for Seamanship and Navigation, which Commissions will be confirmed from their original dates if approved by their Lordships, provided they pass their examination at the Royal Naval College in two months after their arrival in England; but no person appointed to act as Mate or as Lieutenant is to be sent home from a Foreign Station for the purpose of passing such examination.

To qualify a gentleman for an appointment as Midshipman, he must have served in Her Majesty's Navy two complete years as a Cadet, or three complete years in any other capacity; and shall pass such Examination as may from time to time be ordered by the Admiralty, and shall be full fourteen years of age.

A Naval Cadet, before his admission into the Navy, shall undergo such Examination as the Admiralty may from time to time direct.

Naval Cadets must not be under twelve, nor over fourteen, years. They must be in good health, fit for Service, and able to write English from dictation, and must be acquainted with the four first Rules of Arithmetic, Reduction, and the Rule of Three.

(Mates on the half-pay of Half-a-crown a-day are in *italics*.)

NAVAL INSTRUCTORS.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for an appointment as Naval Instructor who is under 20 years of age or more than 35.—Every Candidate will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

Digitized by Google

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observations with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

Naval Instructors will be allowed, in addition to their pay, £5 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman receiving instruction.

Naval Instructors who shall retire from employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall not be allowed to receive half pay; and will be removed from the list of Naval Instructors.

Chaplains acting as Naval Instructors will be allowed £5 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

Naval Instructors are in all respects Ward Room Officers.

N.B.—Those marked * are Naval Chaplains, and those distinguished by † are in Holy Orders.

PASSED CLERKS.

Clerks in Charge and Passed Clerks are appointed by Commission, and rank with but after Mates, Assistant-Surgeons, and Second-Masters. Before being promoted to the rank of Passed Clerk, an officer must have served three years as the Secretary of a Flag Officer or Commodore of the first or second class, or as Clerk to the Secretary of a Flag Officer or Commodore of the first class, or as a Clerk in Her Majesty's Navy, or in any one or more of those capacities, comprehending a period of three years in the aggregate, and must be twenty-one years of age. Clerks are appointed by the Admiralty, or, on a foreign station, by the Commander-in-Chief, but will not be so rated under eighteen years of age, when they rank before Masters' Assistants, who have not passed their first examination. Clerks' Assistants are appointed by the Admiralty between the ages of fifteen and seventeen; but previously to obtaining the rating they must pass an examination at the Royal Naval College as to their knowledge of the first four rules of Arithmetic, Reduction, Rule of Three, the value of English Weights and Measure, and be able to write correctly from dictation in a fair and legible hand. A preference to be given to those who are acquainted with the French language. Two years service as a Clerks Assistant is necessary to qualify for a Clerk's rating.

Passed Clerks are allowed half-pay of 2s. 6d. a day, provided they have served three years in that rank, (or are prevented by illness or injuries from completing that servitude), are unable to obtain employment, and have not declined service when offered.

OFFICERS AUTHORISED TO WEAR FOREIGN ORDERS.

Rules relative to Foreign Orders from Foreign Sovereigns.

1st. No British Subject shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

2nd. To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at London. And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

3rd. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken Her Majesty's pleasure, and obtained Her consent upon the occasion, he shall then signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that the usual Warrant may be prepared for the Royal Sign Manual, and such other steps be taken as may be necessary for carrying Her Majesty's pleasure into effect accordingly.

4th. When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

5th. No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

6th. Her Majesty's license and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

Her Majesty has been pleased further to direct,—

7th. That if the Service for which it is proposed to confer the Order has been performed during War, the Notification required by the 2nd Regulation must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the Service has been performed in time of Peace, the Notification must be made within two years of the date of such Service.

8th. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Declaration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

ABERDEEN.

Foreign Office, August 22, 1843.

The Queen has made known her pleasure,—

9th. That the 8th Clause of the Regulations respecting Foreign Orders shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by her predecessors, their Majesties King George IV., and King William IV., on whose heads the Crowns of Great Britain and Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of the 5th Clause of the Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

ABERDEEN.

Foreign Office, July 6, 1846.

REGULATIONS RESPECTING FOREIGN MEDALS.

The Queen has been pleased to direct that—

1st. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or the Navy for Military or for Naval Services should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction, upon obtaining which they may grant such permission without any other formality.

2nd. Permission to wear a Foreign Medal cannot be granted to a British Subject unless such Medal is bestowed for Military or Naval services, but no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

PLAN OF NAVAL RETIREMENT.

Admiralty, 25th June, 1851.

HER MAJESTY, by Her Order in Council of June 25th, 1851, having been graciously pleased to sanction certain arrangements proposed by the Board of Admiralty, with a view to the general benefit of the Naval Service, and, at the same time, the ultimate reduction of the present charge for Half-pay, the Lords Commissioners of the Admiralty hereby give notice of the mode in which the arrangements in question will be carried into effect.

The number of Flag Officers will in future be reduced to 99, exclusive of Admirals of the Fleet; of these 21 to be Admirals, 27 Vice Admirals, and 51 Rear Admirals: this reduction will be effected as follows, viz.:

1st. By removing to a Reserved Half-pay List those Officers now on the Active List who have not served for their Flag, under the Order in Council of 30th June, 1827. These Officers will receive, as at present, the Half-pay of Rear Admirals, but will be allowed the same advantage of rising in rank as if they had remained on the Active List.

2nd. By awarding ten Retired Service Pensions, of £150 each, to such Flag officers as are either above 70 years of age, or are physically incapable of further Active Service; such Officers to be placed on the Reserved List, and the vacancies occasioned by death to be filled up from the Active List. These Pensions will NOT be held in addition to the Good Service Pension.

CAPTAINS.

The number of Captains on the Active List will be reduced to a number not permanently exceeding 350, and the reduction shall be effected as follows, viz.:

1st. As vacancies occur on the Active List of Flag Officers, the Captain first in Seniority, who has served for his Flag, will be promoted; reserving, however, Her Majesty's undoubted right of selection. Those Captains who rise to their Flags, and who have not so served, will be placed on the Reserved Half-pay List, rising in rank as at present, but with the Half-pay only of Rear-Admirals.

2nd. By keeping up the Retirement of 1846 to the number of 200, to be effected by permitting Captains who are above 55 years of age, and who have been on the Captains' List for ten years, to be eligible for retirement. The Retirement will be so kept up to 200 until the List of Captains shall be reduced to 350; the Retired List then to be diminished by only retiring one in two vacancies until it shall be reduced to 100.

3rd. By observing the rule of promotion, as it is now in force, of promoting one in three vacancies, except in special and individual cases, until the number is reduced to 350.

While my Lords have recommended the abandonment of the system of brevet promotion in future, they are nevertheless desirous of meeting the claims of old Officers who have served long and well, and who seek their promotion rather as a reward for past services, than in the expectation of further employment. To meet these claims equitably, and at the same time not to fill the Active List with Officers who cannot long continue fit for service, their Lordships will promote by selection 50 Commanders to the rank of Captains. These Officers will be placed on Reserved Half-pay. Of these 50, twenty will be selected in the present year, and 10 in each succeeding year, until the number reaches 50, when the vacancies only will be filled up.

COMMANDERS.

The number of Commanders on the Active List will be reduced to a number not permanently exceeding 450, and the reduction will be effected thus:—

1st. By selecting 50 Commanders to be Captains, as above specified.

2nd. By increasing to 100 the List of Commanders promoted to the rank of Retired Captain under the Order in Council of 1840, and keeping such Retirement open until the number of Commanders on the Active List is reduced to 450.

3rd. By placing on Reserved Half-pay all Commanders who have not served afloat, or in the Packet or Revenue Service, within 20 years, or who are physically incapable of service, and by continuing from time to time to remove such Officers from the Active List to Reserved Half-pay. Officers who may be thus placed on Reserved Half-pay will be allowed to retain all the advantages they now enjoy of rising in pay or rank, or of receiving the Greenwich Out-Pension.

4th. The system of promoting by brevet will be abandoned. Fifty Lieutenants, however, will be promoted by selection to the rank of Commander, to be placed on Reserved Half-pay, in the same manner as specified in the case of Commanders promoted to be Captains.

5th. By observing the rule of promotion of one in three vacancies (except in special and individual cases), as now in force, until the number on the Active List shall be reduced to 450.

LIEUTENANTS.

The number of Lieutenants on the Active List will be reduced to a number not permanently exceeding 1,200, viz.:—

1st. By the promotion of 50 Lieutenants by selection, as above stated.

2nd. By placing on the Reserved Half-pay List all Lieutenants who have not served afloat, or in the Packet or Revenue Service, within 20 years, and all such as are physically unable to serve; and by removing from time to time such Officers from the Active to the Reserved Half-pay List, reserving to them, as in the case of Commanders, all the advantages they now enjoy of rising in pay or rank, or of receiving the Greenwich Out-Pension.

3rd. By keeping up the rule of promoting one Officer in three vacancies (except in special and individual cases) till the number of Lieutenants on the Active List shall be reduced to 1,200.

4th. No promotion of Mates to be Lieutenants will hereafter be made by brevet; but whereas in case of war, or of emergency, Her Majesty may be pleased by her Order in Council to call such Officers from the Reserved List into active service, Her Majesty has been pleased to approve that such Officers as may be so employed shall be in all respects entitled to the pay and emoluments of their respective ranks on the Active List.

By the Acts 25 Charles II., Cap. 2, and subsequent Acts, and by the 9 George IV., Cap. 17, all Officers of the Navy, on attaining the rank of Rear-Admiral, or on being promoted to a superior rank, are required to take the Oath of Allegiance, and make the Declaration therein respectively mentioned, within Six Months, either in the Court of Chancery or King's-Bench, at Westminster, or at the Quarter-Sessions of the County or Place where they shall be resident, in default of doing which their Commissions are declared void: But if the Officer should be absent from England when promoted, or if his promotion shall take place within three months before his departure, he may take the Oath, and make the Declaration, at any time within Six Calendar Months after his return.

EXAMINATION FOR THE RANK OF LIEUTENANT.

Admiralty, August, 1853.

With reference to Art. 21, Chap. 2, page 21, of the Admiralty Instructions, which provides that Mates, who have already passed their examination abroad, shall pass an examination at the Royal Naval College, within two months of their return to England, in order to entitle them to confirmation from the date of their first Certificate; and it appearing that some misapprehension has arisen on this point, and that it has been supposed that, provided a Mate passes within the specified period, it is immaterial whether he fail, or otherwise, in his first examination at the College; my lords desire that, in future, it may be clearly understood, that Mates who have already passed abroad, are at liberty to select either the 1st, 2nd, or 3rd examination day at the Royal Naval College, after their arrival in England; or if belonging to a ship under orders to be paid off, on the 1st, 2nd, or 3rd examination day after having been so paid off. If rejected on *any* examination day, officers will incur the forfeiture of three months' seniority in their rank as Mates, instead of being allowed to take seniority from the date of their passing in Seamanship: a second rejection will incur the forfeiture of six months' seniority, and a third rejection nine months (in the whole). All other cases will be dealt with specially by the Board of Admiralty.

The non-appearance of Officers for Examination at the times required by these Regulations, will be considered as a tacit acknowledgment of their not being qualified, and will be dealt with in the same manner as if they had been actually rejected on each day on which they may have omitted to appear, viz.:—Non-appearance on the third examination day will incur the forfeiture of three months' seniority; non-appearance on the fourth day, six months; non-appearance on the fifth day, nine months; and all other cases of Mates not appearing must be specially reported to the Board, for the decision of their Lordships.

W. A. B. HAMILTON.

N.B. —This Rule applies also to Masters' Assistants and Second Masters.

My Lords Commissioners of the Admiralty have been pleased to issue the following Regulations relative to the future entry and examination of Masters' Assistants in the Royal Navy:—

1st. The entries of Masters' Assistants will be limited to such numbers annually as their Lordships may from time to time direct.

2nd. The age and qualifications required for the admission of a Master's Assistant in the Navy is to be in accordance with the following rules, and the examination is to take place at the Royal Naval College.

A Candidate must not be less than 14 nor more than 16 years of age [unless he be selected from the Merchant Service, in which case the age is extended to 18, provided he has served two years at sea]; he must be in good health, and produce a certificate of his age, parentage, and regularity of conduct. If between the ages of 14 and 15, he is to pass the same examination as a Naval Cadet on his first entry. If 15 and under 16, in addition to the above, he will be required to understand the practical use of the sextant, and the mode of keeping a ship's reckoning by working a day's work, and obtaining the latitude by observation. If at the age of 18 he will also be required to know the mode of obtaining the longitude by chronometers, the variation of the compass, and he must be able to explain the mode of rigging lower masts and bowsprit, and the more simple evolutions of working a ship under plain sail.

3rd. When a Master's Assistant has completed a servitude of three years with that rating, he must be examined by the Captain or Commander, and the Senior Lieutenant, as to the progress he has made in obtaining a proper knowledge of practical seamanship in all its branches, fitting, turning in, and setting up rigging, shifting masts, yards, and sails, laying out and weighing anchors by boats, taking helm and lead, stowage of provisions and water; and by the Naval Instructor in his knowledge of navigation, determining the latitude and longitude by day and night observations, the use of chronometers, the azimuth compass, and the mode of constructing charts; and every Master's Assistant must serve three complete years after this examination before he shall be allowed to pass for Second Master. This examination, however, is not to apply to those officers who have entered from the Merchant Service.

4th. Masters' Assistants are to be instructed by the Naval Instructor, for which the Naval Instructor will be allowed the usual tuition money, and the expense defrayed by the Admiralty.

5th. The Master of the ship in which Master's Assistants are serving is to instruct them in practical seamanship and other branches of a Master's duty, as per Naval Instructions, Chap. VII., Art. 21, page 217; and the half-yearly Report or Form No. 225, is to show the advancement made by them from time to time.

6th. On a ship being paid off Masters' Assistants will be entered on the books of a guardship for such time as their Lordships may direct, or until selected for another appointment, provided they possess good certificates, and are recommended by their commanding officer.

7th. Masters' Assistants, when they have completed their regulated period of servitude, and have passed their examination for Second Master, will be placed on the list of the Navy in that rank, and will, if employed, receive the commission and pay of a Second Master (being borne in lieu of Masters-Assistants, if there should not be vacancies for Second Masters in the ships in which they may be serving); but they will not be eligible for promotion to the rank of Master until they shall have served two years further in the capacity of Second Master.

8th. Masters' Assistants passing abroad in seamanship, and temporarily in navigation and pilotage, are to be appointed by their Commanders-in-Chief, or by their Commanding Officers, to be Acting Second Masters, in the same manner as is provided for Midshipmen to be rated Acting Mates; but they must be borne in lieu of Masters' Assistants.

By Command of their Lordships,
JOHN PARKER.

ROYAL NAVAL COLLEGE.

SCIENTIFIC EDUCATION OF OFFICERS.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the *Excellent*.

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and a preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal Naval College for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his Instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College.

By Command of their Lordships, C. Wood.

My Lords Commissioners of the Admiralty having had under their consideration the examination required of Officers, on subjects connected with the Steam Engine, with a view to ascertain their competency to be registered as "Steam Officers," are pleased to order that no Officer shall, henceforward, be so registered, until he has passed an examination at the Royal Naval College at Portsmouth, on the subjects herein detailed; and any Officer, whether he has acquired his knowledge in one of Her Majesty's Dockyards, or at the factories of private individuals, or has studied at the Royal Naval College, or not, is at liberty to present himself for examination, on the days fixed for the purpose, on giving timely notice to the Captain Superintendent of the College of his intention so to present himself.

The Examinations are to take place once in every three months, at the time fixed for the present Quarterly Examinations; and they will be conducted by the Professor of the College, in the presence of the Admiral Superintendent of the Dockyard and the Captain Superintendent of the College.

The subjects on which the Officers will be examined are to be, until further notice, as follows viz.:—

3. The application of these branches of science to the steam engine.
4. The name, and use of every part of the engines, boilers, &c.
5. Construction and principle of the engines and boilers; expansion of steam, economy of fuel, resulting from the application of the principle, and, under certain circumstances, from the employment of reduced power.

The Chief Engineer of the Dockyard is to furnish the Professor with questions, relating to the heads Nos. 4, 5 and 6—marked with the number which should be given for each question if answered fully and correctly; and he is to examine the written answers, and mark upon each of them the number which should, in his opinion, be given by the Professor.

The Professor is to prepare questions under the first three heads, and in like manner assign to each question the number which should be given to it, if answered fully and correctly.

The whole of these questions are to be printed, and placed in the hands of each Officer, on the day of examination.

An abstract is ultimately to be made by the Professor of the result of the examinations, shewing in one column the greatest number which could be gained under each head of the examination - and in another column the aggregate of the number under the separate heads awarded to each Officer; and this abstract is to be transmitted to the Secretary of the Admiralty, with a copy of the printed questions, for their Lordships' information. Commodores of the first class and captains of the fleet to share as flag officers.

ADDRESS.

IT is now fifteen years since the NEW NAVY LIST was published by the late Commander CHARLES HAULTAIN, K.H., and its success, up to the present time, has amply justified the project of that gallant officer. The publication, in its altered form, having now entered upon its ninth year, it is due to the profession amongst the members of which its support was looked for, to add, that the success has in no degree diminished.

The grand object sought to be attained by the NEW NAVY LIST is the keeping before the world, in a condensed but intelligible shape, the more important points of service performed by each commissioned Officer. It must be taken for granted that ordinary routine services have fallen more or less to the lot of all; but to enter into their detail would be to defeat that part of the plan of the work which embraces condensation. It is not contemplated by the exclusion of such services to underrate them, but when it is considered that already one-third of each number is occupied by notices of war or scientific performances, it will be obvious that more space could not be accorded without rendering the work so bulky and expensive, as to defeat the proposed and more desirable end of extensive circulation.

The present war has been especially marked by various performances well deserving the notice of the country. The Editor has endeavoured to include notices of such services; but, as he has possibly overlooked the names of some Officers who have distinguished themselves, or has only imperfectly noticed their gallant deeds, he begs to urge upon all the desirableness of communicating with him at their earliest convenience.

ADDRESS TO THE EDITION,

Published in February, 1846.

THE importance of the NEW NAVY LIST and GENERAL RECORD OF SERVICES to all Officers of the Royal Navy and Royal Marines, has been seriously considered by the Proprietors and Editor of the present Number. In completing, at a great sacrifice of capital and labour, the extensive alterations, which will be observable at a glance, due regard has been paid to the relative services of all Officers, and the whole arrangement so changed, that its superiority in point of information will, it is hoped, render the NEW NAVY LIST a book of general circulation and reference.

Nothing can be further from the wish of the Proprietors than to detract from the merits of the late gallant Compiler, Commander HAULTAIN, whose labours and sacrifices were but ill compensated by the sale of the work ; but, in admitting deficiencies, of which a remedy has been aimed at, they must be in a great measure laid to the charge of the want of business resources with which he had to contend. In this respect there will now be nothing wanting ; and it is the full intention of the Proprietors to render the NEW NAVY LIST in every way worthy the full confidence and patronage of the Navy and Country at large.

The changes which have at present been effected may be here alluded to. The Services of all Officers have been separated from the mass, and brought to follow the Seniority Lists of the respective ranks as closely as possible. The object of this has been to facilitate references. The Services have been thoroughly revised and reprinted in double columns, and all expletive terms of commendation or otherwise struck out. Thus an Officer will no longer have to read the services of a brother Officer recounted in a more laboured strain than his own, which intrinsically, perhaps, were of greater merit than those so described. The propriety of this will, it is hoped, meet with general concurrence, and by thus removing superfluous type, an extended record of actual service is rendered easy. In a word, it is the wish to condense as much real service as possible into a small and intelligible compass, without giving undue consequence to any.

The NEW NAVY LIST will also, for the future, give by far the most complete record of the Services of that distinguished corps, the Royal Marines, in a condensed form, to be found in any publication. This new feature will, it is hoped, have the effect of making it a work essential and acceptable to all in any way connected with the Navy.

The List of the Navy has also undergone a thorough revision. Beneath the name of each Ship on the Effective List will be found the place and date of launching, the tonnage, and name of constructor or constructors—information not to be found in a complete shape in any other publication extant. The unserviceable and harbour service Ships have been removed to a separate list.

The exclusion of the "date of passing" column, heretofore given in the Seniority Lists of Captains, Commanders, and Lieutenants, demands some explanation. The extremely partial, and occasionally

inaccurate, way in which the information was given, rendered it particularly objectionable; and the evident disinclination on the part of Officers of long standing generally to communicate the information, added to the impracticability of procuring it from an official source, decided the point of removing the column entirely. If, however, at any future period, the dates of passing can be given in every case, it will be more valuable and far less invidious than it was previously.

But the most important new feature is that of the General Alphabetical Index of all Officers in the Royal Navy and Royal Marines, which has been compiled with great labour, and upon the accuracy of which the character of the work may be safely staked.

The Honorary Marks before the names of titled Officers will soon become familiar to the eye, and it is presumed they will be preferred to the letters heretofore used.

The Initial Letters at present refer only to the services of Officers in Lord Howe's great battle of the 1st June, 1794; Sir John Jervis's victory off Cape St. Vincent, 14th February, 1797; Admiral Duncan's defeat of the Dutch fleet off Camperdown, 11th Oct., 1797; Nelson's achievements at the Nile, 1st Aug., 1798; at Copenhagen, 2nd April, 1801; and at Trafalgar, 21st Oct., 1805; together with the expedition to Egypt, 1801; Sir Richard Strachan's action off Ferrol, 4th Nov., 1805; and the defeat of the French squadron off St. Domingo by Admiral Sir John Duckworth, 6th February, 1806. By this selection it is not meant to cast other services into the shade, and it will be a subject for consideration what other triumphs of the British Navy shall be equally distinguished.

Although thus much has been done, attempts at further improvement will not be wanting, and it will afford pleasure to the Proprietors and Editor to receive corrections or available additions to the services as they are now given. In particular, those services of a scientific character are here alluded to, which Officers are requested to furnish in order to render this peculiar province more complete.

It will, however, be obvious that the great expenses connected with the publication of a work like the NEW NAVY LIST cannot be persevered in without an increase to the number of Subscribers; and those whose wish it is to maintain a work of such value to all who have claims which require to be kept before those in authority, will, it is hoped, use their best endeavours to increase the sale. They will thereby also enable the Proprietors to publish the work at the lowest price which will afford a due return for the capital embarked, and the vigilance and labour which must be incessantly employed in the collection of new materials, and the preservation of accuracy.

RETIRED REAR-ADMIRALS.

Pay, £456 5s. per annum.

PLAN OF RETIREMENT, August 31, 1846.

1st. The rank of retired Rear-Admiral to be given, by seniority, to such applicants from the 14s. 6d. half-pay list, as may be willing to accept it, with the pay of £1 5s. per day, and the corresponding pension to their widows, under the usual restrictions.

2d. An addition of 7s. 6d. per day to be given to applicants, by seniority, from the 12s. 6d. and 10s. 6d. half pay lists, being captains of not less than 20 years standing, and 55 years of age. Officers from both lists to be permitted to assume the title of Retired Rear-Admiral at the period when they would have obtained the Flag by seniority, had they remained upon the active list. Their widows to be entitled to a pension of £110 per year; and to the pension of Rear-Admiral's widow, when the rank of Retired Rear-Admiral has been attained.

3d. The vacancies upon the £1 list to be filled up, in turn of seniority, by officers now accepting the 18s. per day; but no new admissions to the £1 5s. list to be made until it is reduced below the number of 25, which it is not to exceed afterwards. The permanent retired list to be reduced to 100, by making one appointment for every two vacancies, the first 25 officers upon the list receiving £1 5s. per day, and the remaining 75 £1 per day, with the right of assuming the rank of Retired Rear-Admiral, when entitled to it by seniority.

4th. The active list of Captains not permanently to exceed 500. A proportionate reduction to be made in the 14s. 6d. and 12s. 6d. half-pay lists; the first to consist of 70 Captains, and the latter of 100.

5th. Good service pensions to be retained by Captains, until they reach the rank of Rear-Admiral, or Retired Rear-Admiral.

6th. The promotions from the Captains' list to the Admirals' list in future to be continuous, reserving always the undoubted right of the Crown to select officers for promotion in the higher as well as the lower ranks, whenever the public interest requires such an exercise of the prerogative.

7th. The Admirals' list not permanently to exceed 150 in number, and to be thus distributed:—

30 Admirals, or 10 of each squadron;

45 Vice-Admirals, or 15 of each squadron;

And 75 Rear-Admirals, or 25 of each squadron.

8th. This plan to come into operation on the 1st of October of the present year, and all letters relating to it to be treated as strictly confidential.

By command of their Lordships,

H. G. WARD.

Time served as Master, shall, in future, be considered as time served as Lieutenant, to qualify an Officer to receive a Commission as Commander, under Her Majesty's Regulations, Art. 2, Sec. 4, Chap. 3, in the event of any particularly distinguished conduct which in the opinion of the Lords Commissioners of the Admiralty it may be proper to reward by such advancement.

Such Masters as shall not have served afloat as Masters in the Royal Navy six complete years, and are not already in the receipt of higher half pay, shall not be entitled to any increase of pay beyond Five shillings a day, except in cases where it shall appear to the Lords Commissioners of the Admiralty, that inability to serve the prescribed term of six years shall have been caused by wounds or ill health, arising from the service.

A Master's Assistant (when such rating shall be allowed by the Admiralty) previously to receiving an appointment as such to any of Her Majesty's ships, will be required to have a thorough knowledge of Practical Observations of the Sun, Moon and Stars, for ascertaining the Latitude; to work double Altitudes; the Longitude by Chronometer; and to keep a Ship's reckoning by the common Rules, usually denominated a day's work.

(*See page* 321.)

EXAMINATION OF MASTERS.

ADMIRALTY, DECEMBER 17, 1849.

The Lords Commissioners of the Admiralty having had under their consideration the present Regulations for the examination of Masters and Second Masters of Her Majesty's Fleet, as defined by Art. 21, chap. 2, page 22, and Art. 25, chap. 2, page 25, of the printed instructions, have been pleased to direct that on and after the 1st of January next, the following Regulations shall be adopted, viz.:—

All Officers passing for the rank of Second Masters (or Officers from the Merchant Service who are candidates for the rank of Master, under the Queen's Regulations, Art. 6, chap. 3, page 24), shall be examined in seamanship, either at home or abroad, by one Captain or Commander, and three Masters; and after having received a certificate of having passed such examination, they shall undergo their examination in navigation, at the Royal Naval College (instead of the Trinity House), under the same Regulations, and at the same period as Midshipmen passing for Lieutenants; but the examination for pilotage is to be conducted at the Trinity House, under the rules and regulations at present in force, but subsequent to the above-mentioned examinations. Having completed the above examinations, they will be considered eligible for the rank of Master in the Royal Navy, provided they shall have served the time required by the Queen's Regulations.

The seniority of Second Masters (or of candidates for the rank of Masters) is in future to reckon from the date of their passing in seamanship for that rank, provided they shall subsequently pass in Navigation at the Royal Naval College on the first or second examination-day following, either of which days they are at liberty to select; or, in the event of an Officer having previously passed *abroad* in seamanship, he is at liberty, after his arrival in England, to select either the first or second examination-day at the Royal Naval College; or if belonging to a ship under orders to be paid off, on the first or second examination-day after having been so paid off, when, if he shall succeed in passing, he will be allowed seniority from the date of his having passed abroad. But no Second Master (a candidate for the rank of Master) will be allowed such seniority who shall fail in passing the Royal Navy College at the first trial, or who shall not pass at the Trinity House within a month after his having passed in Navigation.

Officers appearing before the Trinity Board for the purpose of passing in pilotage, must be qualified to take charge as Pilot of any of Her Majesty's frigates for the coast and ports for which Masters have hitherto been examined; and when they shall have served three years, at least, in frigates or sloops, they may be further examined as to their qualifications to take charge of Line-of-battle ships; but in this examination it will be required that they pass for the largest description of first-rates. In the event of an Officer serving abroad as Acting Master of a Line-of-battle ship, the time so served may reckon as part of the aforesaid three years.

The class of ship of which Officers are capable of taking charge as Pilots will be stated in the certificate granted to them by the Trinity House.

All Officers desirous of being examined in pilotage at Trinity House, either for the rank of Second Master, or as to their qualifications to serve as Masters of frigates, or of Line-of-battle ships, should present themselves at the Admiralty, bringing with them a certificate of their birth, and also their original certificates for the entire period they have been employed in Her Majesty's service, or in merchant ships, in each of which certificates the word sobriety must be included. Similar certificates must be produced by Officers presenting themselves to pass in navigation at the Royal Naval College.—By command of their Lordships,

J. PARKER.

MATES.

Military Rank—Lieutenant.

To qualify an Officer to become a Mate, he must have served the time and passed the Examination required to qualify him for a Lieutenantcy; but whatever rank beyond that of Midshipman he may obtain abroad, previous to passing such Examination at the Naval College as may from time to time be required will depend for confirmation on his passing the said Examination within such period after his return to England as shall be directed from time to time by the Admiralty.

No Mate shall be allowed Half-Pay without having been previously surveyed and reported unfit by the Director-General, or the Officers of one of the Naval Hospitals at home. The Medical Officers are therefore to report particularly in each case the probable period at which the Invalid may be again fit for employment; and at the expiration of such period the Mate is to report himself to their Lordships, in order that, if he should state himself to be still unable to serve, proper measures may be taken to ascertain his continued unfitness; after which, should he be declared fit for employment and still withhold his services, his Half-Pay is to be respited.

Mates who may apply for the retiring pension of two shillings and sixpence a day after twenty years' actual service, will not be re-admitted after having accepted such Pension. The names of all Mates who remain out of the Service for more than one year, without applying for an Appointment, will be removed from the official Register of Mates and Midshipmen, and be considered as having relinquished the Naval Service; unless the omission proceeded from unavoidable causes.

All Midshipmen who shall have passed such Examination respecting their Qualifications for the appointment of Lieutenant as the Lords Commissioners of the Admiralty may from time to time direct (if abroad, for Seamanship and Navigation, and if at home also at the Royal Naval College), shall be considered eligible to have Commissions as Mates in whatever Ship they may be serving; such Commission will be given by the Lords Commissioners of the Admiralty, upon the recommendation of the Commanding Officer of the Ship in which the person may be serving, transmitted by the Commander-in-Chief or Senior Officer on the Station.

Commanders-in-Chief on Foreign Stations may give Acting Commissions as Mates to such Midshipmen as may pass abroad for Seamanship and Navigation, which Commissions will be confirmed from their original dates if approved by their Lordships, provided they pass their examination at the Royal Naval College in two months after their arrival in England; but no person appointed to act as Mate or as Lieutenant is to be sent home from a Foreign Station for the purpose of passing such examination.

To qualify a gentleman for an appointment as Midshipman, he must have served in Her Majesty's Navy two complete years as a Cadet, or three complete years in any other capacity; and shall pass such Examination as may from time to time be ordered by the Admiralty, and shall be full fourteen years of age.

A Naval Cadet, before his admission into the Navy, shall undergo such Examination as the Admiralty may from time to time direct.

Naval Cadets must not be under twelve, nor over fourteen, years. They must be in good health, fit for Service, and able to write English from dictation, and must be acquainted with the four first Rules of Arithmetic, Reduction, and the Rule of Three.

(Mates on the half-pay of Half-a-crown a-day are in *italics*.)

NAVAL INSTRUCTORS.

Naval Instructors and Schoolmasters are hereafter to be designated "Naval Instructors," and Chaplains on being appointed to act as Naval Instructors are to be designated "Chaplains and Naval Instructors."—No person will be considered eligible for an appointment as Naval Instructor who is under 20 years of age or more than 35.—Every Candidate will be required to produce a certificate of his age, and testimonials of good character; and both laymen and clergymen when appointed to act as Naval Instructors must pass an examination as to their qualifications to instruct the young Officers in the following branches:—1st. Common Arithmetic, including Vulgar and Decimal Fractions.—2nd. The first six, and the eleventh books of Euclid.—3rd. Algebra, progressing to the highest order of equations, and its application to the solution of Geometrical Problems.—4th. Plane and Spherical Trigonometry, theoretical and practical.—5th. Nautical Astronomy, particularly the principles on which the various rules for finding the latitude and longitude are founded.—6th. Mechanics.—7th. Hydrostatics.—8th. A competent knowledge of the Classics.

Digitized by Google

The final examination of Candidates for Naval Instructorships will comprise:—1st. The usual College passing examination in Navigation.—2nd. The application of the theory of Projectiles to Gunnery.—3rd. Observatons with the Sextant, &c. The use of the Azimuth Compass and Chronometer, &c. Perfect proficiency will be expected in observing: 250 numbers will be required to pass a Candidate in the College paper, and 55 is to be the minimum number for observations.

Although the knowledge of French, as well as of other modern languages, and of the principles of drawing, is not considered as indispensable, it is very desirable that Naval Instructors should be able to give instruction in these branches of education; and preference will always be given to such as possess these attainments.

Naval Instructors will be allowed, in addition to their pay, £5 a-year to be charged on the ship's books against, and to be deducted from, the pay of every young gentleman receiving instruction.

Naval Instructors who shall retire from employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall not be allowed to receive half pay; and will be removed from the list of Naval Instructors.

Chaplains acting as Naval Instructors will be allowed £5 a year to be deducted from the pay of every young gentleman instructed by them, in addition to their pay as Chaplains and to three-fourths of the amount of the Full Pay of Naval Instructors, according to the length of their service as such.

Naval Instructors are in all respects Ward Room Officers.

N.B.—Those marked * are Naval Chaplains, and those distinguished by † are in Holy Orders.

To qualify an Officer to receive a Commission as Surgeon, he must have been three years employed as an Assistant Surgeon, one year of which, at least, must be on board a Commissioned Ship, and the other two may be served in one of Her Majesty's Naval Hospitals; and he shall pass such Examination as the Admiralty may from time to time direct; but no Surgeon or Assistant Surgeon, who shall retire from his employment without the sanction of the Admiralty, or who shall refuse or avoid service, if found capable of serving, shall be allowed to receive half-pay; and his name in such case will be removed from the list of Officers of the Royal Navy.

Sir Gilbert Blane, Bart., with the concurrence of the Lords Commissioners of the Admiralty, for the encouragement of Naval Medical Science, and excitement of an emulation that may conduce to the interests of an important branch of the public service, established a Fund in perpetuity, for the purpose of providing the means of conferring a *gold medal*, once in every two years, on such two Medical Officers, whether *Surgeons* or *Assistant-Surgeons acting as Surgeons*, as shall produce the most approved journals of their practice, whilst actually serving in Her Majesty's Ships.

ASSISTANT PAYMASTERS.

Assistant-Paymasters are appointed by Commission, and rank with but after Mates, Assistant-Surgeons, and Second-Masters. Before being promoted to the rank of Assistant-Paymasters, an officer must have served three years as the Secretary of a Flag Officer or Commodore of the first or second class, or as Clerk to the Secretary of a Flag Officer or Commodore of the first class, or as a Clerk in Her Majesty's Navy, or in any one or more of those capacities, comprehending a period of three years in the aggregate, and must be twenty-one years of age. Clerks are appointed by the Admiralty, or, on a foreign station, by the Commander-in-Chief, but will not be so rated under eighteen years of age, when they rank before Masters' Assistants, who have not passed their first examination. Assistant-Clerks are appointed by the Admiralty between the ages of fifteen and seventeen, but previously to obtaining the rating they must pass an examination at the Royal Naval College as to their knowledge of the first four rules of Arithmetic, Reduction, Rule of Three, the value of English Weights and Measure, and be able to write correctly from dictation in a fair and legible hand. A preference to be given to those who are acquainted with the French language. Two years service as an Assistant-Clerk is necessary to qualify for a Clerk's rating.

Assistant-Paymasters are allowed half-pay of 2s. 6d. a day, provided they have served three years in that rank, (or are prevented by illness or injuries from completing that servitude), are unable to obtain employment, and have not declined service when offered.

OFFICERS AUTHORISED TO WEAR FOREIGN ORDERS.

Rules relative to Foreign Orders from Foreign Sovereigns.

1st. No British Subject shall accept a Foreign Order, or wear its Insignia, without having previously obtained a Warrant under the Royal Sign Manual (directed to the Earl Marshal of England), granting them Her Majesty's permission to accept and wear the same.

2nd. To obtain such permission, the intention of the Foreign Sovereign to decorate a British subject with the Insignia of such Order is to be notified to Her Majesty's Principal Secretary of State for Foreign Affairs, either through the Queen's Minister abroad, or through the accredited Minister of the Foreign Sovereign resident at London. And if the application be in favour of a Naval Officer, the Principal Secretary of State for Foreign Affairs will communicate with the First Lord of the Admiralty to the same effect, previous to Her Majesty's pleasure being taken thereon.

3rd. When Her Majesty's Principal Secretary of State for Foreign Affairs shall have taken Her Majesty's pleasure, and obtained Her consent upon the occasion, he shall then signify the same to Her Majesty's Principal Secretary of State for the Home Department, in order that the usual Warrant may be prepared for the Royal Sign Manual, and such other steps be taken as may be necessary for carrying Her Majesty's pleasure into effect accordingly.

4th. When the Warrant is signed by the Queen, it shall be announced in the Gazette in the usual manner, and registered in Her Majesty's College of Arms.

5th. No subject of Her Majesty can be allowed to accept the Insignia of a Foreign Order from any Sovereign of a Foreign State, except they shall be so conferred in consequence of active and distinguished services before the enemy, either at sea or in the field, or unless he shall have been actually employed in the service of such Foreign Sovereign.

6th. Her Majesty's license and permission doth not authorise, and shall not be deemed or construed to authorise, the assumption of any style, appellation, rank, precedence, or privilege appertaining unto a Knight Bachelor of these Realms.

Her Majesty has been pleased further to direct,—

7th. That if the Service for which it is proposed to confer the Order has been performed during War, the Notification required by the 2nd Regulation must be made not later than two years after the exchange of the Ratifications of a Treaty of Peace.

If the Service has been performed in time of Peace, the Notification must be made within two years of the date of such Service.

8th. When a British Subject has received the Royal permission to accept a Foreign Order, he will at any future time be allowed to accept the Declaration of a higher Class of the same Order, to which he may have become eligible by increase of rank in the Foreign Service, or in the Service of his own country; or any other distinctive mark of honour strictly consequent upon the acceptance of the original Order, and common to every person upon whom such Order is conferred.

ABERDEEN.

Foreign Office, August 22, 1843.

The Queen has made known her pleasure,—

9th. That the 8th Clause of the Regulations respecting Foreign Orders shall not be taken to apply to Decorations of the Guelphic Order which were bestowed on British Subjects by her predecessors, their Majesties King George IV., and King William IV., on whose heads the Crowns of Great Britain and Hanover were united.

Decorations so bestowed cannot properly be considered as rewards granted by a Foreign Sovereign for services rendered according to the purport of the 5th Clause of the Regulations. They must be rather considered as personal favours bestowed on British Subjects by British Sovereigns, and as having no reference to services rendered to the Foreign Crown of Hanover.

ABERDEEN.

Foreign Office, July 6, 1846.

REGULATIONS RESPECTING FOREIGN MEDALS.

The Queen has been pleased to direct that—

1st. Application for permission to accept and wear Medals which, not being the decoration of any Foreign Order, are conferred by a Foreign Sovereign on British Subjects in the Army or the Navy for Military or for Naval Services should be addressed, as the case may be, to the Commander-in-Chief, the Master-General of the Ordnance, or the Lords of the Admiralty, who, if they see fit, may submit the same to Her Majesty's Principal Secretary of State for Foreign Affairs for Her Majesty's sanction, upon obtaining which they may grant such permission without any other formality.

2nd. Permission to wear a Foreign Medal cannot be granted to a British Subject unless such Medal is bestowed for Military or Naval services, but no permission is necessary for accepting a Foreign Medal, if such Medal is not to be worn.

PLAN OF NAVAL RETIREMENT.

Admiralty, 25th June, 1851.

HER MAJESTY, by Her Order in Council of June 25th, 1851, having been graciously pleased to sanction certain arrangements proposed by the Board of Admiralty, with a view to the general benefit of the Naval Service, and, at the same time, the ultimate reduction of the present charge for Half-pay, the Lords Commissioners of the Admiralty hereby give notice of the mode in which the arrangements in question will be carried into effect.

The number of Flag Officers will in future be reduced to 99, exclusive of Admirals of the Fleet; of these 21 to be Admirals, 27 Vice Admirals, and 51 Rear Admirals: this reduction will be effected as follows, viz.:

1st. By removing to a Reserved Half-pay List those Officers now on the Active List who have not served for their Flag, under the Order in Council of 30th June, 1837. These Officers will receive, as at present, the Half-pay of Rear Admirals, but will be allowed the same advantage of rising in rank as if they had remained on the Active List.

2nd. By awarding ten Retired Service Pensions, of £150 each, to such Flag officers as are either above 70 years of age, or are physically incapable of further Active Service; such Officers to be placed on the Reserved List, and the vacancies occasioned by death to be filled up from the Active List. These Pensions will NOT be held in addition to the Good Service Pension.

CAPTAINS.

The number of Captains on the Active List will be reduced to a number not permanently exceeding 350, and the reduction shall be effected as follows, viz.:

1st. As vacancies occur on the Active List of Flag Officers, the Captain first in Seniority, who has served for his Flag, will be promoted; reserving, however, Her Majesty's undoubted right of selection. Those Captains who rise to their Flags, and who have not so served, will be placed on the Reserved Half-pay List, rising in rank as at present, but with the Half-pay only of Rear-Admirals.

2nd. By keeping up the Retirement of 1846 to the number of 200, to be effected by permitting Captains who are above 55 years of age, and who have been on the Captains' List for ten years, to be eligible for retirement. The Retirement will be so kept up to 200 until the List of Captains shall be reduced to 350; the Retired List then to be diminished by only retiring one in two vacancies until it shall be reduced to 100.

3rd. By observing the rule of promotion, as it is now in force, of promoting one in three vacancies, except in special and individual cases, until the number is reduced to 350.

While my Lords have recommended the abandonment of the system of brevet promotion in future, they are nevertheless desirous of meeting the claims of old Officers who have served long and well, and who seek their promotion rather as a reward for past services, than in the expectation of further employment. To meet these claims equitably, and at the same time not to fill the Active List with Officers who cannot long continue fit for service, their Lordships will promote by selection 50 Commanders to the rank of Captains. These Officers will be placed on Reserved Half-pay. Of these 50, twenty will be selected in the present year, and 10 in each succeeding year, until the number reaches 50, when the vacancies only will be filled up.

COMMANDERS.

The number of Commanders on the Active List will be reduced to a number not permanently exceeding 450, and the reduction will be effected thus:—

1st. By selecting 50 Commanders to be Captains, as above specified.

2nd. By increasing to 100 the List of Commanders promoted to the rank of Retired Captain under the Order in Council of 1840, and keeping such Retirement open until the number of Commanders on the Active List is reduced to 450.

3rd. By placing on Reserved Half-pay all Commanders who have not served afloat, or in the Packet or Revenue Service, within 20 years, or who are physically incapable of service, and by continuing from time to time to remove such Officers from the Active List to Reserved Half-pay. Officers who may be thus placed on Reserved Half-pay will be allowed to retain all the advantages they now enjoy of rising in pay or rank, or of receiving the Greenwich Out-Pension.

4th. The system of promoting by brevet will be abandoned. Fifty Lieutenants, however, will be promoted by selection to the rank of Commander, to be placed on Reserved Half-pay, in the same manner as specified in the case of Commanders promoted to be Captains.

5th. By observing the rule of promotion of one in three vacancies (except in special and individual cases), as now in force, until the number on the Active List shall be reduced to 450.

LIEUTENANTS.

The number of Lieutenants on the Active List will be reduced to a number not permanently exceeding 1,200, viz.:—

1st. By the promotion of 50 Lieutenants by selection, as above stated.

2nd. By placing on the Reserved Half-pay List all Lieutenants who have not served afloat, or in the Packet or Revenue Service, within 20 years, and all such as are physically unable to serve; and by removing from time to time such Officers from the Active to the Reserved Half-pay List, reserving to them, as in the case of Commanders, all the advantages they now enjoy of rising in pay or rank, or of receiving the Greenwich Out-Pension.

3rd. By keeping up the rule of promoting one Officer in three vacancies (except in special and individual cases) till the number of Lieutenants on the Active List shall be reduced to 1,200.

4th. No promotion of Mates to be Lieutenants will hereafter be made by brevet; but whereas in case of war, or of emergency, Her Majesty may be pleased by her Order in Council to call such Officers from the Reserved List into active service, Her Majesty has been pleased to approve that such Officers as may be so employed shall be in all respects entitled to the pay and emoluments of their respective ranks on the Active List.

OATH OF ALLEGIANCE, &c.

By the Acts 25 Charles II., Cap. 2, and subsequent Acts, and by the 9 George IV., Cap. 17, all Officers of the Navy, on attaining the rank of Rear-Admiral, or on being promoted to a superior rank, are required to take the Oath of Allegiance, and make the Declaration therein respectively mentioned, within Six Months, either in the Court of Chancery or King's-Bench, at Westminster, or at the Quarter-Sessions of the County or Place where they shall be resident, in default of doing which their Commissions are declared void: But if the Officer should be absent from England when promoted, or if his promotion shall take place within three months before his departure, he may take the Oath, and make the Declaration, at any time within Six Calendar Months after his return.

EXAMINATION FOR THE RANK OF LIEUTENANT.

Admiralty, August, 1853.

With reference to Art. 21, Chap. 2, page 21, of the Admiralty Instructions, which provides that Mates, who have already passed their examination abroad, shall pass an examination at the Royal Naval College, within two months of their return to England, in order to entitle them to confirmation from the date of their first Certificate; and it appearing that some misapprehension has arisen on this point, and that it has been supposed that, provided a Mate passes within the specified period, it is immaterial whether he fail, or otherwise, in his first examination at the College; my lords desire that, in future, it may be clearly understood, that Mates who have already passed abroad, are at liberty to select either the 1st, 2nd, or 3rd examination day at the Royal Naval College, after their arrival in England; or if belonging to a ship under orders to be paid off, on the 1st, 2nd, or 3rd examination day after having been so paid off. If rejected on *any* examination day, officers will incur the forfeiture of three months' seniority in their rank as Mates, instead of being allowed to take seniority from the date of their passing in Seamanship: a second rejection will incur the forfeiture of six months' seniority, and a third rejection nine months (in the whole). All other cases will be dealt with specially by the Board of Admiralty.

The non-appearance of Officers for Examination at the times required by these Regulations, will be considered as a tacit acknowledgment of their not being qualified, and will be dealt with in the same manner as if they had been actually rejected on each day on which they may have omitted to appear, viz.:—Non-appearance on the third examination day will incur the forfeiture of three months' seniority; non-appearance on the fourth day, six months; non-appearance on the fifth day, nine months; and all other cases of Mates not appearing must be specially reported to the Board, for the decision of their Lordships.

W. A. B. HAMILTON.

Note.—This Rule applies also to Masters' Assistants and Second Masters.

REGULATIONS RESPECTING MASTERS' ASSISTANTS.

Admiralty, December 9th, 1851.

My Lords Commissioners of the Admiralty have been pleased to issue the following Regulations relative to the future entry and examination of Masters' Assistants in the Royal Navy:—

1st. The entries of Masters' Assistants will be limited to such numbers annually as their Lordships may from time to time direct.

2nd. The age and qualifications required for the admission of a Master's Assistant in the Navy is to be in accordance with the following rules, and the examination is to take place at the Royal Naval College.

A Candidate must not be less than 14 nor more than 16 years of age [unless he be selected from the Merchant Service, in which case the age is extended to 18, provided he has served two years at sea]; he must be in good health, and produce a certificate of his age, parentage, and regularity of conduct. If between the ages of 14 and 15, he is to pass the same examination as a Naval Cadet on his first entry. If 15 and under 16, in addition to the above, he will be required to understand the practical use of the sextant, and the mode of keeping a ship's reckoning by working a day's work, and obtaining the latitude by observation. If at the age of 18 he will also be required to know the mode of obtaining the longitude by chronometers, the variation of the compass, and he must be able to explain the mode of rigging lower masts and bowsprit, and the more simple evolutions of working a ship under plain sail.

3rd. When a Master's Assistant has completed a servitude of three years with that rating, he must be examined by the Captain or Commander, and the Senior Lieutenant, as to the progress he has made in obtaining a proper knowledge of practical seamanship in all its branches, fitting, turning in, and setting up rigging, shifting masts, yards, and sails, laying out and weighing anchors by boats, taking helm and lead, stowage of provisions and water; and by the Naval Instructor in his knowledge of navigation, determining the latitude and longitude by day and night observations, the use of chronometers, the azimuth compass, and the mode of constructing charts; and every Master's Assistant must serve three complete years after this examination before he shall be allowed to pass for Second Master. This examination, however, is not to apply to those officers who have entered from the Merchant Service.

4th. Masters' Assistants are to be instructed by the Naval Instructor, for which the Naval Instructor will be allowed the usual tuition money, and the expense defrayed by the Admiralty.

5th. The Master of the ship in which Master's Assistants are serving is to instruct them in practical seamanship and other branches of a Master's duty, as per Naval Instructions, Chap. VII., Art. 21, page 217; and the half-yearly Report or Form No. 225, is to show the advancement made by them from time to time.

6th. On a ship being paid off Masters' Assistants will be entered on the books of a guardship for such time as their Lordships may direct, or until selected for another appointment, provided they possess good certificates, and are recommended by their commanding officer.

7th. Masters' Assistants, when they have completed their regulated period of servitude, and have passed their examination for Second Master, will be placed on the list of the Navy in that rank, and will, if employed, receive the commission and pay of a Second Master (being borne in lieu of Masters-Assistants, if there should not be vacancies for Second Masters in the ships in which they may be serving); but they will not be eligible for promotion to the rank of Master until they shall have served two years further in the capacity of Second Master.

8th. Masters' Assistants passing abroad in seamanship, and temporarily in navigation and pilotage, are to be appointed by their Commanders-in-Chief, or by their Commanding Officers, to be Acting Second Masters, in the same manner as is provided for Midshipmen to be rated Acting Mates; but they must be borne in lieu of Masters' Assistants.

By Command of their Lordships,
JOHN PARKER.

ROYAL NAVAL COLLEGE.

SCIENTIFIC EDUCATION OF OFFICERS.

Admiralty, 20th December, 1838.

Her Majesty having been graciously pleased to sanction, by Order in Council of July 8th, 1838, the establishment of further means of scientific education for a certain number of Officers of Her Majesty's Naval Service, under such regulations as the Lords Commissioners of the Admiralty may frame from time to time.

Their Lordships have directed that for this object—Thirty additional Mates, who have passed both the Examination in Seamanship and in Navigation, shall be borne on the books of the *Excellent*.

They will receive Sea-pay, and be in all respects under Naval discipline; but they will receive the usual allowance instead of being victualled, and be lodged in the Royal Naval College. Any further expense will be defrayed by themselves.

They will be selected from such as have passed the Ordinary Examination on board the *Excellent*, and a preference will be given to those who shall have passed the best Examination.

They will receive Instruction at the Royal Naval College for the space of one year, and then be discharged.

An Examination will take place at the end of every six months.

The Mate who passes the best Examination, provided he produces satisfactory Certificates of character and professional ability from the Captains with whom he has served, and during the period of his Instruction, will receive a Lieutenant's Commission; provided always he attains a certain fixed degree of proficiency.

A limited number (Ten) of Commissioned Officers of any rank may avail themselves of the instruction thus afforded, for the space of one year. No expense will be incurred on their account; and they will be expected to pass the ordinary examination of the *Excellent* before they are admitted to the instruction at the Royal Naval College. By Command of their Lordships, C. Wood.

EXAMINATION OF OFFICERS ON SUBJECTS CONNECTED WITH THE STEAM ENGINE.

Admiralty, 8th of December, 1849.

My Lords Commissioners of the Admiralty having had under their consideration the examination required of Officers, on subjects connected with the Steam Engine, with a view to ascertain their competency to be registered as "Steam Officers," are pleased to order that no Officer shall, henceforward, be so registered, until he has passed an examination at the Royal Naval College at Portsmouth, on the subjects herein detailed; and any Officer, whether he has acquired his knowledge in one of Her Majesty's Dockyards, or at the factories of private individuals, or has studied at the Royal Naval College, or not, is at liberty to present himself for examination, on the days fixed for the purpose, on giving timely notice to the Captain Superintendent of the College of his intention so to present himself.

The Examinations are to take place once in every three months, at the time fixed for the present Quarterly Examinations; and they will be conducted by the Professor of the College, in the presence of the Admiral Superintendent of the Dockyard and the Captain Superintendent of the College.

The subjects on which the Officers will be examined are to be, until further notice, as follows viz.:—

1. The Elements of Geometry, Mechanics, and Dynamics.
2. Laws of Heat.

3. The application of these branches of science to the steam engine.
4. The name, and use of every part of the engines, boilers, &c.
5. Construction and principle of the engines and boilers; expansion of steam, economy of fuel, resulting from the application of the principle, and, under certain circumstances, from the employment of reduced power.
6. The nature, application, and uses of the indicator.

The Chief Engineer of the Dockyard is to furnish the Professor with questions, relating to the heads Nos. 4, 5 and 6—marked with the number which should be given for each question if answered fully and correctly; and he is to examine the written answers, and mark upon each of them the number which should, in his opinion, be given by the Professor.

The Professor is to prepare questions under the first three heads, and in like manner assign to each question the number which should be given to it, if answered fully and correctly.

The whole of these questions are to be printed, and placed in the hands of each Officer, on the day of examination.

An abstract is ultimately to be made by the Professor of the result of the examinations, shewing in one column the greatest number which could be gained under each head of the examination—and in another column the aggregate of the number under the separate heads awarded to each Officer; and this abstract is to be transmitted to the Secretary of the Admiralty, with a copy of the printed questions, for their Lordships' information. GUTTA PERCHA TUBING

ON

SHIPBOARD.

Owing to the following peculiar properties of Gutta Percha, its value for numerous purposes in SHIPPING, &c., will be readily perceived,—viz.: It is perfectly waterproof.—Is unaffected by salt water—Does not sink in water.—Uninjured by acids, alkalies, &c.—Cannot be broken by being thrown down, dashed against rocks, &c.—Is readily moulded into any form by the application of heat.

The Gutta Percha Company *have the pleasare of acknowledging the receipt of the following Testimonials.*

From Messrs. FOSTER & SON, Liverpool.

"In answer to your inquiry, we beg to state that the Gutta Percha Tubing we have had from you is used on board ships to convey the water from the tanks or casks in the hold to the deck, and that from its lightness and flexibility it is well adapted for that purpose, as it can be easily and quickly moved from one cask to another. The best proof we can give of its efficiency is, *that we are now fitting it to almost every ship's pumps we fit up.*"

From Messrs. SIDDERLEY & Co., Liverpool.

We have supplied a great number of ships with pumps for raising the fresh water from the casks in the hold, for which we have used the Gutta Percha Pipe, and it has in all cases been highly approved of by the captains, on account of its cleanliness, durability, and the facility with which it is worked from cask to cask.

From Mr. ROBERT WALES, Liverpool.

I have been supplying your Gutta Percha Piping in considerable quantities to be used on board *emigrant ships*, for the purpose of pumping out the water from the tanks or casks below decks. By means of this Tubing the water can now be brought up with about one quarter the trouble than when it had to be carried up in buckets. I find that Gutta Percha Piping is highly approved of by the different captains in whose vessels it has been used. I believe when its value becomes more known it will come into general use.

OPINIONS OF THE PRESS.

"Gutta Percha Tubing is used for conversation between the Helmsman and Captain on Shipboard."—*Journal of Commerce.*

"As a substitute for leather in pumps on board ships, Gutta Percha Tubing recommends itself to universal adoption."—*Patriot.*

"Gutta Percha Tubing will be found of great advantage in ventilating the lower deck and ship-hold. It resists the action of salt water, only becoming harder when exposed to it."—*London Mercantile Journal.*

Every variety of Gutta Percha Articles manfactured by the Gutta Percha Company, and sold by their wholesale Dealers in town and country.
